Continuation of Substance of Interview including description of the general nature of what was discussed: The Examiner informed counsel that the recent declaration is sufficient to show an unexpected result for the claims under consideration. The Examiner noted that claim 12 should be amended to make it clear that the recited monomers were not limiting all monomers, such as the acidic or basic monomers, but some of the monomers as discussed in the specification. The Examiner also noted that the withdrawn claims would need to be amended to include the limitations of the allowed toner claim 1 for rejoinder. The Examiner also suggested minor formal changes to the claims to improve format and readability. Counsel agreed to the amendments.
